Test Cases

1. Test items

Identify and briefly describe the items and features to be exercised by this test case. For each item, consider supplying references to the following test item documentation:

- a) Requirements specification; (provide github and version)
- b) Design specification;
- c) Users guide;
- d) Operations guide;
- e) Installation guide.

2. Input/Output Specification

ID Escenario	Flujos
Scen-1	BF (basic Flow) – Create a Purchase
Scen-2	BF + AF1 – No Items available for Purchase
Scen-3	BF + AF2 (Filter Items) – User applies filters to find items
Scen-4	BF + AF3 (Modify Purchase) – User goes back to change item selection before saving
Scen-5	BF + AF4 – Missing mandatory data when filling the purchase
Scen-6	BF + AF5 – Some selected item has no stock during final confirmation

3. Environmental needs

3.1 Hardware

Specify the characteristics and configurations of the hardware required to execute this test case (e.g., 32 character x 24 line CRT).

3.2 Software

Specify the system and application software required to execute this test case. This may include system software such as operating systems, compilers, simulators, and test tools. In addition, the test item may interact with application software.

- Azure, Selenium

3.3 Otros

Specify any other requirements such as unique facility needs or specially trained personnel.

4. Special procedural requirements

Describe any special constraints on the test procedures that execute this test case. These constraints may involve special set up, operator intervention, output determination procedures, and special wrap up.

Before running any Test Case, sign in with username test@uclm.es and password Test123! and run script dbo.PaymentMethods.data.sql

Before running Test Case UC45_2, run script [dbo].[Items_empty]

	Version: 1.0
Test Case	Fecha: 13/12/2025
<document identifier>	

Before running the rest of Test Cases, run script [dbo].[Items]

5. Intercase dependencies

List the identifiers of test cases that must be executed prior to any test case described in this document. Summarize the nature of the dependencies.
